PANKOTAI IMRE

I earned my Bachelor's degree in Computer Engineering from the University of Debrecen, and I am currently a first-year Master's student in Data Science at the same university. I would like to join the Hajós György Data Science College to deepen my knowledge and develop my skills. I believe in the power of teamwork, yet I also work independently, precisely, and responsibly. My goal is to contribute to the community with my professional development and dedication.
